Click "Add Field" at the bottom of the table to add a new field. The new field will be added as the last field to the table. You can change order of the fields by dragging the small up-down icon.

Right click on the table to delete or clone the table and to change table color.

Creating Relationships

To create a relation between two tables, you need to add a "Foreign Key" to a table. When adding a new field click on "Foreign Key" and select the "Referenced Table" and "Referenced Field"
